

## Roseanne Barr Slams Brangelina

I guess Roseanne Barr was feeling out of the celeb loop last weekend when she decided to trash Angelina Jolie and Brad Pitt.

On Barr's web site [roseanneworld.com](http://roseanneworld.com), she wrote a harsh blog, basically calling the couple stupid and selfish.

The comedienne referred to Brad as "vacuous" and Angie as an "evil spawn."

She commented on the fact that the couple makes tens of millions of dollars a year on violent psychopathic movies and then "they give away 3 million on starving children trying to look as if they give a crap about humanity."

Barr also attacked Jolie for baring more children, and her political stance..or lack thereof.

Whether you agree or not with Barr's statements, I think the real question is, why does she care?

I'm just trying to think of the last thing I heard about Roseanne...another divorce I believe about 8 years ago.

This was a cry for attention and publicity if I've ever seen one.

Bravo Roseanne, you certainly picked the right targets to get back in the game!
